c. Referred to the report prepared by the staff of the PSB on the National Psychological Effort and noted that the President had requested that it be completed by 15 August. The Director stated he had advised Mr. Lay that the report would not be ready for another two weeks; however, it had been discussed at the last PSB meeting and both State and Defense had been prepared to consider the report while he was prepared only to comment. After some discussion, the DCI directed DD/P to expedite any further action on this report required by CIA since he desired to act on it at the next PSB meeting. In this connection, the Director noted that there was also a possibility that the report in question might be circulated for approval by voting slip.
